IDENTIFIKACIONI TEST KITOVI

IDENTIFIKACIONI TEST KITOVI
kombinacija 12 testova u kitu, nepotrebna lab.priprema različitih biokemikalija
identifikacija organizama do nivoa vrste

IDENTIFICATION TEST KITS
combination of 12 test, unnecessary laboratory preparation of various bio-chemicals,
identification of organisms to the species level

Kat.br. Cat. No	NAZIV I OPIS Name & Description	PAK Pack.
85.KB001-10KT 85.KB001-20KT	<p>HiIMViCTMBiochemical Test Kit Kombinacija 12 testova za diferencijaciju Enterobacteriaceae sp. Kit sadrži sterilne medije 8 različitih ugljikohidrata i reagense Combination of 12 tests for differentiation of Enterobacteriaceae sp. Kit contains sterile media of 8 different carbohydrates and reagents</p>	10kitova 20kitova
85.KB002-10KT 85.KB002-20KT	<p>HiAssortedTMBiochemical Test Kit Kombinacija 12 testova za identifikaciju Gram negativnih štapića. Kit sadrži sterilne medije, 5 različitih ugljikohidrata za utilizacione testove i reagense Combination of 12 tests for identification of gram-negative rods. Kit contains sterile media, 5 different carbohydrates for utilization tests and reagents</p>	10kitova 20kitova
85.KB003-10KT 85.KB003-20KT	<p>Hi25TM Enterobacteriaceae Identification Kit Kombinacija 12 testova za identifikaciju Enterobacteriaceae sp. Kit sadrži diskove za oksidazu, sterilne medije, 11 različitih utilizacionih testova ugljikohidrata i reagense Combination of 12 tests for identification of Enterobacteriaceae sp. Kit contains discs for oxidase, sterile media, 11 different utilization tests of carbohydrates and reagents</p>	10kitova 20kitova
85.KB004-10KT 85.KB004-20KT	<p>HiStaphTM Identification Kit Kombinacija 12 testova za identifikaciju Staphylococcus sp. Kit sadrži sterilne medije, 7 različitih utilizacionih testova ugljikohidrata i reagense Combination of 12 tests for identification of Staphylococcus sp. Kit contains sterile media, 7 different utilization tests of carbohydrates and reagents</p>	10kitova 20kitova

85.KB005A-10KT 85.KB005A-20KT	<p>HiStrepTM Identification Kit Kombinacija 12 testova za identifikaciju Streptococcus sp. Kit sadrži sterilne medije, 7 različitih utilizacionih testova ugljikohidrata i reagense Combination of 12 tests for identification of Streptococcus sp. Kit contains sterile media, 7 different utilization tests of carbohydrates</p>	10kitova 20kitova
85.KB006-10KT 85.KB006-20KT	<p>HiCandidaTM Identification Kit Kombinacija 12 testova za identifikaciju Candida sp. Kit sadrži sterilni medij, 11 različitih utilizacionih testova ugljikohidrata Combination of 12 tests for identification of Candida sp. Kit contains sterile media, 11 different utilization tests of carbohydrates</p>	10kitova 20kitova
85.KB007-10KT 85.KB007-20KT	<p>HiVibrioTM Identification Kit Kombinacija 12 testova za identifikaciju Vibrio sp. Kit sadrži sterilne medije, 6 različitih utilizacionih testova ugljikohidrata i reagense Combination of 12 tests for identification of Vibrio sp. Kit contains sterile media, 6 different utilization tests of carbohydrates and reagents</p>	10kitova 20kitova
85.KB008-10KT 85.KB008-20KT	<p>HiNeisseriaTM Identification Kit Kombinacija 12 testova za identifikaciju Neisseria sp. Kit sadrži sterilne medije, 6 različitih utilizacionih testova ugljikohidrata i reagense Combination of 12 tests for identification of Neisseria sp. Kit contains sterile media, 6 different utilization tests of carbohydrates and reagents</p>	10kitova 20kitova
85.KB009-10KT 85.KB009-20KT	<p>HiCarboTM Kit Kombinacija 36 testova za utilizaciju ugljikohidrata . Kit sadrži Part A, Part B, Part C i svaki ima po 12 testova Combination of 36 tests for carbohydrate utilization Kit contains Part A, Part B, Part C and each contains 12 tests</p>	10kitova 20kitova
85.KB010-10KT 85.KB010-20KT	<p>HiE.coliTM Identification Kit Kombinacija 12 testova za identifikaciju E.coli sp. Kit sadrži sterilne medije, 4 različita utilizaciona testa ugljikohidrata i reagense Combination of 12 tests for identification of E.coli sp. Kit contains sterile media, 4 different utilization tests of carbohydrates and reagents</p>	10kitova 20kitova
85.KB011-10KT 85.KB011-20KT	<p>HiSalmonellaTM Identification Kit Kombinacija 12 testova za identifikaciju Salmonella sp. Kit sadrži sterilne medije, 5 različitih utilizacionih testova ugljikohidrata i reagense Combination of 12 tests for identification of Salmonella sp. Kit contains sterile media, 5 different utilization tests of carbohydrates and reagents</p>	10kitova 20kitova

<p>85.KB012A-10KT 85.KB012A-20KT</p>	<p>HiListeriaTM Identification Kit Kombinacija 12 testova za identifikaciju Listeria sp. Kit sadrži sterilne medije, 7 različitih utilizacionih testova ugljikohidrata i reagense Combination of 12 tests for identification of Listeria sp. Kit contains sterile media, 7 different utilization tests of carbohydrates and reagents</p>	<p>10kitova 20kitova</p>
<p>85.KB013-10KT 85.KB013-20KT</p>	<p>HiBacillusTM Identification Kit Kombinacija 12 testova za identifikaciju Bacillus sp. Kit sadrži sterilne medije, 5 različitih utilizacionih testova ugljikohidrata i reagense Combination of 12 tests for identification of Bacillus sp. Kit contains sterile media, 5 different utilization tests of carbohydrates and reagents</p>	<p>10kitova 20kitova</p>
